

Mykola Darnichenko
Ukraine, Sumy

Trainee Front End Developer

About Me

Motivated Front End developer with experience in Vue.js, JavaScript, and modern web technologies. Skilled in developing responsive interfaces, working with APIs, and ensuring a smooth user experience.

Skills

- **Languages:** JavaScript (ES6+), HTML, CSS (SCSS, Tailwind)
 - **Frameworks:** Vue.js, Nuxt.js
 - **Build Tools:** Webpack, Vite
 - **API & Databases:** REST API
 - **Version Control:** GitHub, GitLab
 - **UI/UX:** Figma, Responsive Design
 - **Additional:** QuillEditor, Vue Router, i18n
-

Work Experience

Freelance / Personal Projects

Currently practicing Vue.js framework by developing the front-end part of a blog website. In the project, I use:

- **i18n** for multilingual support;
- **vue-router** for page navigation.

All posts on the site are added to the database through an admin panel. Integrated QuillEditor and customized the toolbar. Developed middleware for route blocking and modal windows.

Education

National Aerospace University "Kharkiv Aviation Institute"
Faculty: Aircraft Control Systems
Specialty: Computer Science (2016-2020)

Additional Training

- **Epam Front-End Self-Paced Online Program**

Languages

- **Ukrainian** – Native
 - **English** – B1 (*Green Forest Certificate*)
-
